Peer review process

The editors encourage the authors to provide the names of at least five potential reviewers from outside their institution who have not been collaborators or coauthors within the last three years and have not provided advice or critique of the submitted manuscript. Authors may list up to a maximum of three reviewers they wish to exclude. Please note that papers sent for peer reviewing do not contain the author's names and affiliations. Any submission will not be processed unless it has a signed authorship. This will avoid eventual conflicts between authors. Authors are advised to provide recent references (2000 and recently), and from peer-reviewed journals. Papers with references before 2000 are discouraged.
